To the members of NSWGFA,

Dear friends & fellow members, I hope this letter finds you all safe & well. We have indeed been through an unprecedented experience in recent months that I hope is on its way to being over.

As you all would be aware the State & Federal Government have begun to ease some of the restrictions imposed in March, the easing of these restrictions has given us cause to look at our sport & make a decision about resuming our competitions, club activities and NSW records.

The restrictions look set to be lifted to level 2 on the 1st June with a new set of rules around numbers of people in gatherings.

So the Executive has decided to follow suit and allow all clubs and anglers to resume activities as long as they maintain strict social distancing rules as directed by the State Government this means making sure whenever & where ever their members are to make sure they are seen to be complying, especially when posting pictures on social media & public websites. Any breaches will be dealt with harshly & swiftly.

We intend to monitor the situation & if it changes at any point, we will let the members know.

In the meantime, please be smart about your actions & stay safe.

We will inform GFAA of our decision to lift the suspension of all competition fishing, NSW Trophies, Sanctioned Tournaments and Records in NSW & we hope they will follow suit shortly.

We will inform the members once we have the announcement from GFAA.

Regards

Garry Chenoweth  
NSWGFA President  
25/05/2020
